

- All program sizes have significantly reduced numbers, never exceeding recommendations set forth by the Governor for group size.

Programs occur outdoors, with limited interaction between staff and participants, other than safety instructions and program oversight.

- Guests will not necessarily need to access the aquarium building, except to use the bathrooms.
- All staff will wear masks, carry sanitizing products, and enforce social distance guidelines for participants.
- Guests will be required to wear masks indoors and outdoors where social distancing cannot be observed.
- Most of our participants come in family or friend groups, with the small numbers we will strive to keep individual families/groups clustered together and encourage them to socially distance from other groups in the program.
- No communal/sharing of props, biofacts, crafts, etc.; each person will be provided with individual items for use.
- At the end of the day, staff will wipe all surfaces, props, tools, etc. used by guests with disinfectant to insure cleanliness.
